WELCOME

EMILIO FAROLDI

Executive Vice Rector of Politecnico di Milano
Director of the Master in Sport Design and Management

Emilio Faroldi focuses his professional and academic activities on Technological Design applied to the different urban, architectural and building artefact scales along the whole life cycle.

[POLIMI →](#)
[LinkedIn →](#)

INTRODUCTION FROM THE DIRECTOR

“The International Master in Sport Design and Management puts the SPORT at the centre of its project, linking two Politecnico souls together, in a unique concept. Design (architecture, engineering and industrial design) and Sport Management, developing a programme characterised by the highest cultural and professional level with a multidisciplinary approach, involving an extraordinary NETWORK of speakers, testimonials, stakeholders, companies, federations, and organisations operating in all sectors of the sports industry at a national and global level.”

YOUR PROGRAMME

PROGRAMME OVERVIEW

Format	Duration	Intake
Part Time	12 months	November
Language	Location	Degree Awarded
English/ Italian	Milan	Master’s Diploma
All lessons will be in English; those given in Italian will have simultaneous translation		from POLIMI Graduate School of Management and 1st- or 2nd-level University Specialising Master degree from Politecnico di Milano

The programme has been designed to allow you a blended, international experience: you will have face-to-face lessons in Milan or online once a month (Thursdays-Fridays-Saturdays), plus every Monday via Distance Learning (7 pm-9 pm). Lessons will take place at the Leonardo Campus, the University Campus recently renovated (based on an idea of Renzo Piano). In June and October, two in-person workshops are scheduled, one in Coverciano (Florence) and one in Rome.

Click [HERE](#) to discover all the details about the programme and its structure →

IS IT RIGHT FOR ME?

We are looking for passionate and highly motivated professionals who are specialised in one or more areas of sport management and sport infrastructure management – like management of sports events, match-day operations management, hospitality management, facility management, ticketing management and so on, and want to capture the full global picture of sport management and boost candidates’ knowledge of the most advanced SM topics. Additionally, we are excited to host professionals with relevant experience outside the world of sport management who need to get acquainted with the intricacies of sport management to get ready to make a career leap.

INSTITUTIONAL PARTNERS

EXAMPLES OF PARTNER COMPANIES IN THE LATEST EDITIONS OF THE MASTER

WHY CHOOSE THIS MASTER?

01.

It is a programme that responds to market growth: According to the PwC Global Sports Survey, “Sports Industry: On track for growth?”, there is a growing confidence in the market’s potential, with sports executives predicting overall growth for the next 3-5 years to be 7.3% (up from 6.6% in last year’s survey).

03.

Learn from the Leaders: the Master hosts more than 150 national and international lecturers from the world of sport and related industries, with whom you can develop dedicated project work with private and public institutions and companies, with which you can explore real-world projects and current issues together with the most important **protagonists in the field of sport →**.

05.

Take part in intensive workshops: there are two intensive workshops — one in June, in Coverciano (Florence) at the F.I.G.C. Federal Technical Centre, and one in October in ROME at the C.O.N.I. National Olympic Training Centre. You will be a guest in the exclusive facilities of the highest level of sport in Italy, experiencing unique atmospheres and sports activities in contact with champions of the sport of soccer and Olympic sports. Various sporting and leisure activities are also organised during the year. (*registration cost includes room and board for the two workshops)

02.

Practical approach: the programme offers a practical and multidisciplinary approach, with several **site-visits →** and **match-days →** to put the students in direct contact with the Facility, Operations, Marketing, Hospitality, Ticketing, Safety and Security, and Operations Managers, experiencing various sports venues directly (stadiums, arenas and all possible sporting venues)

04.

Connect with world-class partners: learn from several companies through company visits and testimonials. Take advantage of a variety of opportunities to **widen your network →**, as we provide you with the chance to look into **how companies operate** and learn directly from top managers from the business world. Moreover, you’ll have the chance to connect with the biggest group of professors and stakeholders in SM present in Europe.

06.

Enhance your technical and management skills: the Master in Sport Design and Management offers the possibility of acquiring technical and management skills, which are essential today to be able to liaise with all the protagonists of the complex processes of programming, designing, and managing sport and its spaces. The course covers everything from big sports events to the more popular ones, from the management of sports facilities to the world of marketing and sustainability that open up new professional and employment horizons (A few examples: EURO_2032, Milan-Cortina 2026, European Football Super Cup 2025, Olympics in Los Angeles).

WHY CHOOSE POLIMI GSOM?

WE NURTURE INNOVATORS
TO SHAPE A BETTER
FUTURE FOR ALL.

At POLIMI Graduate School of Management, we inspire tomorrow's business leaders and the companies in which they work, knowing that we can play a crucial role in creating a better future for all.

We believe that education is of fundamental importance, as it provides the leaders of tomorrow with the skills and experience they will need to face our society's most important challenges.

At POLIMI Graduate School of Management, we don't just educate students; we cultivate innovators poised to revolutionise the world. Welcome to a realm where education meets empowerment, where purpose drives passion, and where connections forge pathways to success.

Our purpose is anchored in three powerful pillars, which define our trajectory: MAKE, CONNECT and IGNITE.

MAKE
A DIFFERENCE

Our programmes are designed to nurture your ability to innovate, lead, and shape the future of organisations.

Many of your courses will include contact with corporates, workshops on leadership and managerial skills development, immersing you in the realms of innovation and digital transformation.

CONNECT
NEW IDEAS

Forge valuable connections with industry leaders, peers, and alumni networks that extend far beyond graduation. Throughout your journey you will be able to make meaningful connections through career workshops, activities with alumni and company presentations that will allow you to expand your network and engage with new ways of thinking. Our vibrant community has over 11,000 active connections with companies and is made of over 20,000 alumni that provide endless opportunities for collaboration, mentorship, and professional growth, ensuring that you're plugged into the pulse of the business landscape from day one.

IGNITE
THE FUTURE

Ignite your passion and purpose as you embark on a transformative journey of personal and professional development. Our programmes are designed to spark innovation, foster entrepreneurship, and instil a commitment to social impact, empowering you to drive positive change in the world.

YOUR JOURNEY

DISCOVER THE TIMELINE ↓

CLICK HERE

At POLIMI GSoM, your learning journey* goes beyond lectures and textbooks. Welcome to a master's programme where every aspect of your education is geared towards equipping you with the skills and insights needed to thrive in your future career. But it's not just about learning — it's about discovering your purpose and fostering personal growth. Engage with industry leaders, take part in practical and networking activities to enhance your expertise. Uncover your impact on the world and embark on a transformational path towards professional and personal fulfilment.

YOUR COURSES

- **ATP Tour**

MEDIA AND SPORTS CULTURE

- **Media TV & Broadcast**
- **Media & Sports Social Network | Website**
- **Media & Business**
- **Media & Sports Infrastructure**

LINDA OLIVIERI

ITALY | ARCHITECT AND OLYMPIC ATHLETE | ALUMNA 6TH YEAR | NOW NIKE PROFESSIONAL ATHLETE | SPORTIUM OFFICE

“The Master was the perfect connection between what my job as a sportswoman is today, and what I would like my profession to be in the future. The multidisciplinary nature of the lessons is a great stimulus throughout the year, and the human relationships with professors and classmates were positive and educational from the first to the last day.”

CLICK HERE TO DISCOVER MORE ABOUT CAREER PATHS →

GEORGE BIAGI

ITALY | ECONOMICS | ALUMNO 6TH YEAR 2022 - 2023 | NOW HEAD OF RUGBY OPERATIONS | ZEBRE PARMA

“I’ve been working in the sport industry for over 20 years, first as an athlete and now as a director. The MSDM was simply eye opening and covers the multiple facets of sports, from regulatory to design and management. There is no doubt that this Master will prepare you for the challenges that you will face in the world of sport today and in the future”.

CLICK HERE TO DISCOVER MORE ABOUT CAREER PATHS →

JACOPO MASSARI

ITALY | SCIENCE OF SPORT | ALUMNO 7TH YEAR 2023-2024 | NOW PROFESSIONAL ATHLETE | EVENT ORGANIZER

“After so many years inside the playing field I wanted to work outside the playing field. The master’s program gave me the opportunity to learn and follow the lessons with so many experts and professionals from all over the world. The ‘impact’ has been more than positive, a course of the highest level. The various workshops that the master’s program offers are an opportunity for improvement in both human and educational aspects. Being very cross-curricular, the class has a mix of qualities that daily stimulate you to think about new goals with an increasingly open vision. As far as I am concerned as a sportsman and a graduate in exercise science, I consider this Master’s degree a milestone in the training path to work in the sports environment!”

CLICK HERE TO DISCOVER MORE ABOUT CAREER PATHS →

PROJECT WORK/INTERNSHIP**

*POLIMI Graduate School of Management reserves the right to change the titles and content of the courses before the start of the programme, ensuring the same level of quality. Students already enrolled in the programme will be informed promptly.

Wrap up your programme with a practical approach, by completing this concrete project which you will carry out with the support of an academic tutor. You'll then present your final paper in front of an academic committee at the end of your Master.

**The curricular INTERNSHIP is guaranteed and personalised according to the student's profile, disciplinary background and inclinations. It can be activated at any time from enrolment to the end of the Master's course. They are usually activated upon request a few months after the start of the course.

KODI JAHFETSON

USA | ARCHITECT | ALUMNO 6TH YEAR 2022-2023 | NOW ARCHITECTURAL DESIGN | AMBASSADOR MASTER IN SPORT DESIGN AND MANAGEMENT

“I presented my final thesis titled, “Seamless: The Relationship of Stadiums and Context – Erasing Non-Places and Emplacing Identity” in the Master of Sport Design & Management program. I chose this problem due to my experience in the U.S. of seeing stadiums becoming disconnected from the city that their team(s) call home. To me, stadiums are landmarks for a city and should be adding value to the city through a display of cultural identity, not placing themselves in remote locations due to cheap and undeveloped land or incorporating generic design. This combined with my passion for exploring new places and cultures, through various dimensions, and my desire to have authentic and meaningful relationships. I wanted to explore the characteristics of stadiums that connect well to their city and its surroundings and what makes them flow seamlessly into their surrounding contextual environment.”

CLICK HERE TO DISCOVER MORE ABOUT CAREER PATHS →

YOUR PRACTICE

TWO INTENSIVE WORKSHOPS

Put theory into practice with these engaging outdoor activities. We’ve added these on top of our more traditional classes, giving you a chance to put what you have learned into practice together with key insights from sports management professionals.

- “Luigi Ridolfi” FIGC Federal Technical Centre, Coverciano (FLORENCE)
- “Giulio Onesti” CONI Olympic Training Centre, Acqua Aetosa (ROME)

- You'll have two intensive 4-day workshops: One is at the Centro Tecnico Federale FIGC “Luigi Ridolfi” in Coverciano, the Italian National Football Team's primary training ground, as well as at the “Giulio Onesti” Olympic Preparation Centre in Rome.
- One Site Visit and Match Day: including meetings with sports management professionals
- Workshops on specific projects
- Seminars at the headquarters of companies and public institutions

MONIRAH AL DRAISWEESH

SAUDI ARABIA | INFORMATION TECHNOLOGY | ALUMNA 7TH YEAR 2023-2024 | NOW PROJECT MANAGER | NXTX SPORTS

“The Master in Sport Design and Management was transformative for me. It gave me the chance to connect with people in the industry and pick up practical insights that I use every day. The diverse range of topics covered, along with the networking opportunities, has significantly enhanced my career prospects and personal growth. I highly recommend this program to anyone eager to grow in the sports industry, whether you’re just starting out or looking to take your expertise to the next level.”

CLICK HERE TO DISCOVER MORE ABOUT CAREER PATHS →

MARCELLO NATALINI

ITALY | ENGINEER | ALUMNO 6TH YEAR 2022-2023 | NOW JUNIOR REAL ESTATE PROJECT MANAGER | FC INTERNAZIONALE MILANO

“The unique educational plan focused on sports infrastructure, combined with the vast network of contacts it offers, make the master’s program in sports design & management the ideal opportunity to enter the working world of sports or to make the leap in one's professional career. I found stimulating the possibility of confronting the field during the site visits with professionals in the field from whom I was able to derive insights for my own professional activity, so from not only dwelling on the didactic side, but being able to concretize the knowledge acquired. And I think there is nothing more valuable.”

YOUR CAREER

CAREER DEVELOPMENT CENTRE

Your knowledge and contact with the professional world start right from the beginning of the Master, supported by a wonderful team of professionals and careers consultants.

The Career Development Centre is partnering with you to build a **Career** in a long-term perspective through **three main services**: career consulting, careers workshops and networking events.

The POLIMI Graduate School of Management Career Development Centre is an extended team of Careers Consultants partnering with mentors, trainers, alumni and headhunters, with the objective of developing career management skills as well as building a substantial professional network.

Our Careers Consultants design and constantly innovate and enrich the Career Development Programme, offering Career Skills Development Workshops, and Networking Events every year.

WITH OUR PROGRAMME YOU WILL BE ABLE TO:

- Discover your “**why**” and how to build a **purpose-driven career**;
- Identify your **career goal** and design a strategic action plan;
- Analyse the job market and understand your own **professional employability**;
- **Gain awareness of your value and skills to generate impact**;
- Utilise **emotional insights** for professional growth.

OUR SERVICES

TRAINING

Workshops and seminars are designed to develop career management skills and abilities essential for navigating today’s job market. These sessions equip you with tools and knowledge to enhance your professional profile, master job interview techniques, conduct effective job market searches, and negotiate salaries.

NETWORKING EVENTS

Networking events provide you with the chance to get to know, interact, and build meaningful connections with other professionals, companies, and executive search firms. These occasions are unique opportunities for expanding your network and sharing experiences and best practices.

DIGITAL TOOLS

You’ll have access to cutting-edge AI platforms and major international career resources. This will allow you to expand your global network, enhance your personal branding, and continually develop your career management skills through dedicated workshops.

CAREERS CONSULTING

You’ll have up to 3 individual meetings with a careers consultant who will guide you in designing the best strategy to discover your own purposeful career and reinforce your individual career management skills, essential for charting your professional path. During your journey, you will also be able to take advantage of a one-to-one meeting with a headhunter, to gain insights into the job market and enhance your employability, thanks to our collaboration with important headhunting companies.

CAREER DEVELOPMENT PROGRAMME

CLASS PROFILE

In the past edition:
Representatives of these
nations in class: Italy,
Colombia, Egypt, France,
Saudi Arabia, Hungary.

ILARIA BOSCHI

ITALY | ARCHITECT | ALUMNA 7TH YEAR 2023-2024 | VENUE OVERLAY
SPECIALIST | FONDAZIONE MILANO CORTINA 2026

“The Master's program represents the right educational step to approach career opportunities in the sports industry. It allows you to create a network of connections with professionals, experts, and prominent figures in the international field. The most valuable aspect of the Master’s program is the opportunity to establish relationships and collaborate with leading organizations through lectures, site visits, and project work. The added value of the Master’s experience is the program promoted, which encourages the learning of disciplines different from own academic background, fostering constant curiosity and intellectual growth.”

ALUMNI NETWORK

Your journey with POLIMI Graduate School of Management doesn't end with graduation; it's just the beginning of a lifelong connection. As a member of our community, you'll join a vast network of alumni, including over 20,000 graduates from our school and more than 210,000 members from Politecnico di Milano.

Every year, we offer our alumni a continuous training path, personal development services, and networking events to support your professional growth. Through our alumni community, you will have the chance to share insights, foster connections and cultivate a dynamic community dedicated to shaping tomorrow's leaders. You will also be able to engage with peers through our Alumni Clubs.

Alumni Clubs are a platform for networking with like-minded individuals who share similar interests and professional goals. Additionally, Alumni Clubs organise events, workshops, and social gatherings to foster a sense of community and provide ongoing support for personal and professional development.

With almost **20 diverse Clubs**, including Business & Digital Transformation, Entrepreneurship, and Supply Chain Management & Logistics, you'll find a sense of belonging and support. Our Alumni Engagement Team ensures these connections thrive, providing opportunities for exchanging skills and community building. We believe that a successful career is fuelled by ongoing learning and a strong network, both of which you'll find within our vibrant community at POLIMI GSoM.

YOUR ECOSYSTEM

POLITECNICO DI MILANO

Let yourself be inspired by the lively and dynamic environment of Politecnico di Milano, its international Faculty and the analytical approach to problem solving typical of a technical university.

POLIMI Graduate School of Management, our name, is not only what identifies us as a specialised School but is also a link with the ecosystem of Politecnico di Milano which, together with other prestigious Italian and international companies, is among the members of our School. Founded in 1863, Politecnico di Milano is not only the largest school of Architecture, Design and Engineering in Italy, with two campuses in Milan and five in Northern Italy, but also one of the most important at global level: **eighteenth in the world, seventh in Europe and first in Italy**. This prestige is rooted

in the quality and innovation of its teaching and research, which are deeply connected to each other and to the world of work, thanks to a vast and consolidated network of relationships. Politecnico di Milano has more than **300 research centres** and laboratories, an international network with over **200,000 alumni** and a world-famous Innovation District & Startup Accelerator, PoliHub. In this context, we are at the crossroads of innovation and cutting-edge research, and we offer an environment that promotes the professional and personal growth of our students.

POLIMI GRADUATE SCHOOL OF MANAGEMENT

For us, relationships represent a source of constant enrichment, innovation and inspiration, in both personal and professional terms. The issue of sustainability is truly important to us, and that is why we are committed to building a better, fairer, more inclusive and informed future. We do this with projects and initiatives that maximise our positive impact on society. **We have been a Benefit Company since 2023** and have therefore integrated the aim of having a positive impact on society and the biosphere into our corporate purpose.

Our School, which was founded over 40 years ago in Milan as MIP Politecnico di Milano, is today a non-profit joint-stock consortium company, made up of the University and a group of leading Italian and international businesses.

We offer more than **50 masters**, including MBAs and Executive MBAs, a catalogue of over **250 Management Academy programmes**, as well as training courses tailored for companies. We are innovative and we intend to be increasingly so. This is why today, our Online MBA is recognised as one of the best in the world, and its digital component is featured throughout our range of courses.

As part of the School of Management, we are among the few schools in the world to have achieved “**Triple Crown**” accreditation. With over **20,000 alumni and 3,000 students each year**, we are a large, innovative and entrepreneurial community made up of people and partners.

MILAN IS YOUR CAMPUS

CLICK ON VIDEO
TO DISCOVER MORE ↑

In such a lively context,
why limit yourself
to the POLIMI GSoM
campus?

During your stay in Milan, take advantage of all the opportunities that Milan offers, both from a work and cultural point of view. As POLIMI Graduate School of Management students, you will have at your disposal agreements with restaurants and recreational venues, dedicated co-working spaces in key areas of Milan, a travel pass to move around the city, bike- and car- sharing agreements to move around at will, discounts on cultural events and recreational facilities, agreements with gyms and fitness areas, and much, much more...

We have two campuses, to offer you two different perspectives of this wonderful city. The Bovisa Campus allows you to immerse yourself in the ecosystem of Politecnico di Milano and to make the most of life in the innovation district of Milan. The Navigli Campus enables you to be steeped in a profusion of art and culture while enjoying a dynamic lifestyle.

Learning is a journey, a holistic experience that includes much more than classes and books. It's a journey made up of the people you meet, of the atmosphere you breathe and the places you visit in the meantime.
That's why choosing where to study is as important as choosing what to study. Choosing POLIMI Graduate School of Management means not only choosing a top-ranked Business School, but it also means choosing a school rooted in Milan, Italy, a thrilling city in the centre of Europe.

The Navigli Campus

To encourage you to fully experience Milan during your educational experience, a new campus has recently been inaugurated in the charming and lively Navigli district.
This brand-new campus allows you to have an extremely immersive training experience, based on the most innovative technologies and designed to let the student be the real protagonist in the whole learning experience.

This modernistic campus is a place born from the desire to offer you the opportunity to live a different experience of Milan. Ripa di Porta Ticinese is, in fact, an area of our city where you can breathe a unique atmosphere, in which the spirit of ancient Milan blends with a lively cultural ambience.

The Bovisa Campus

The Bovisa Campus, the historical headquarters and beating heart of POLIMI Graduate School of Management since 2009, is also one of the fundamental poles of Politecnico di Milano. This campus, equipped with several laboratories and an integral part of a widely spread-out campus, testifies to the Politecnico di Milano ecosystem's commitment to innovation and research.
At the heart of a district undergoing a seismic transformation, Bovisa is not only an academic site, but a dynamic crossroads of knowledge which, with the project for the sustainable urban regeneration of the "Bovisa-Goccia-Villapizzone" area, will increasingly become an "open, green and permeable" environment.
